Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1879 Excerpt: .in health varies according to ago, sex, time of day, muscular exercise, activity of physiological processes, and that in febrile diseases their variations are greater than in health. According to Wagner, the lowest temperature occurs in healthy adults in the middle of the night, about one or two o clock, and the highest temperature in the afternoon. A variation of 1 is quite compatible with perfect health. Temperature in slightly higher in infaney and in old age, and in children the temperature is more easily affected than in adult life. Hence in disease a high temperature has less significance in children than in adults. Regulation of body temperature seems to bo under the control of the nervous system. The natural moans for reducing the heat of the body is radiation and evaporation. Experiments by Dr. Ringer, in 1868, on healthy children with quinine showed that it...
