Reviews

This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

Whats wrong with the US food system Why is half the world starving while the other half battles obesity Who decides our food issues, and why cant we do better with labeling, safety, or school food These are complex questions that are hard to answer in an engaging way for a broad audience. But everybody eats, and food politics affects us all. Marion Nestle, whom Michael Pollan ranked as the 2 most powerful foodie in America (after Michelle Obama) in Forbes, has always used cartoons in her public presentations to communicate how politicsshaped by government, corporate marketing, economics, and geographyinfluences food choice. Cartoons do more than entertain; the best get right to the core of complicated concepts and powerfully convey what might otherwise take pages to explain. In Eat, Drink, Vote, Nestle teams up with The Cartoonist Group syndicate to present more than 250 of her favorite cartoons on issues ranging from dietary advice to genetic engineering to childhood obesity. Using the cartoons as illustration and commentary, she engagingly summarizes some of todays most pressing issues in food politics. While encouraging readers to vote with their forks for healthier diets, this book insists that its also necessary to vote with votes to make it easier for everyone to make healthier dietary choices.
